Hi Abby,

Hope you made it home without incident. It has been a busy week here and I am looking forward to throttling back over the weekend.

Anyway, I wanted to share the below e mail with you, in light of our conversation the other night. The info comes from Mark Fesmire of BSEE AK. I suspect you already know of Shells intentions, but wanted to make sure.

brian

Subject: Call with Fesmire

Shell intends to take the wildlife issue all the way up through the White House via murkowski.

He wanted to give us the heads up. It's not in our lane, but you may get engaged by front office and he wanted to make sure we all knew.
